Introduction

About this book:

This book contains a collection of 44 Primer sight words flip books in black and white as well as colour. Each flip book is followed by a writing worksheet for children to further practice the sight word in focus.

Directions for use:

To assemble the flip books, cut out each rectangle, then along the lines of the bottom rectangle. Make sure that the top rectangle is left intact as it will form the base for the flip book! Arrange the “flips” (pages) one on top of the other and staple them to the base. Students will have lots of fun reading their flip books over and over again to friends and family! Once children have finished reading their flip book, they then complete the writing sheet attached to each flip book.

Happy Teaching :)

Top and bottom rectangles have been cut out. TOP rectangle has been left intact.

“Flips” (pages) have been placed one on top of the other and stapled to the base.
